

RTX-3

CAR WASH SOAP

RTX-3 PRODUCT OVERVIEW

Car Wash Soap With Rinse Aid

Features:

- No Personal Protective Equipment Required
- Biodegradable
- Hypoallergenic
- Non-Flammable

Not your standard car wash soap.

Designed for non-consumer-operated applications, we skipped the added fluff of aesthetics-only-super-suds in favor of a power product that lubricates brushes with each wash and keeps your equipment running at optimal performance. With the addition of our built-in rinse aid, you have less spotting issues. Cars come out with a can't-be-beat sheen.

Another above-standard feature is Bradley Systems' unique refill program. Other car wash detergent applications involve refill programs that operate via a truck service to your site, which increases costs such as freight, delivery and service fees. With Bradley Systems, you don't have to rely on a truck service for refills – which means minimized freight costs, no service fee, lower carbon footprint and you never a need to pay for a replacement drum. Join our repeat customers in gaining financial savings by simply refilling the existing drum yourself.

And, as with all Bradley Systems' products, RTX-3 Car Wash Soap With Rinse Aid rates all "0's" on the hazard scale, making it unique among car wash soaps.

RTX-3

CAR WASH SOAP

RTX-3 SPECS & APPLICATIONS

Applications:

- Corporate rental car facility car washes
- Industrial car washes
- Hand wash operations

Usage Directions:

Bradley's RTX-3 can be used in an automated car wash facility or in a hand washing operation. If RTX-3 is used in an automated car wash facility, it can be diluted up to 500:1 through a metering system, depending on outside temperature, humidity and water quality. If RTX-3 is used in a hand washing operation, add a half inch of RTX-3 to the bottom of a five gallon bucket and fill the remainder with water.

Available Configurations:

-  32 oz bottle (case of 12)
-  1-gallon (case of 4)
-  5-gallon pail starter kit*
-  5-gallon pail refill (case of 4)
-  55-gallon drum*
-  55-gallon drum refill
-  275-gallon tote*

Tanker pricing available upon request

* Available ready-to-use or Enviro-Shipped (condensed formulation)
