YELLOW MAGIC PRODUCT OVERVIEW

Flexo & UV Based Ink Cleaner

Just Spray and Wipe!

Bradley Systems now offers Yellow Magic™, a non-Hazmat, environmentally safe cleaner. Yellow Magic is currently being used by leading ink companies, label printers, cup manufacturers, paper bag companies, and more - all across the world!

This water-based cleaner can safely clean virtually everything on a press. Yellow Magic is terrific when used in an Ultra-sonic cleaning machine or in a parts washer. It can even clean cement floors.

Because Yellow Magic™ works well across several applications, including both water-based and UV-based inks, you can reduce the cleaning time in between jobs - which means less costly downtime.

Features:

- Non-toxic
- Manufactured in America
- Non-flammable - Can be disposed of as ordinary garbage (not a Hazmat like other cleaners). Because Yellow Magic does not pose a risk for fire hazard (see SDS section 5: fire-fighting measures), wipes or rags can be disposed of as ordinary garbage. Simply filter Yellow Magic through 50 micron screen to take out contaminants before disposing.
- Zero swelling - The Graphic Arts Technical Foundation (GATF) testing on rubber surfaces found that Yellow Magic caused 0% swelling
- Environmentally safe - Compliant with California Clear Air & Water Rule 1171 - only 10.25 pounds of VOC's in a 55 gallon drum (instead of 280-320 pounds in a regular cleaner!)

For a free trial sample, call 1-800-252-1114 or email sales@bradley-systems.com!}

No obligations. Will ship with an SDS. Qualified ink and printing companies only, please.
YELLOW MAGIC 
SPECS & APPLICATIONS

Applications:

- Flexo UV and water-based inks
- Coatings & Varnishes from surfaces such as rubber, plastic, stainless steel alloys, photopolymer plates, Anilox rollers, cement floors, rugs and other cloth materials
- Simple and quick-to-use, minimizing costly make-ready time in between jobs
- Can also be used for other cleaning purposes such as painted or varnished surfaces, and Anilox rollers on coating units (aqueous). Pre-testing is recommended prior to using on these applications.

Usage Directions:

- Yellow Magic cleaners are to be used at 100% strength and may be used as a spray and wipe.
- General cleaning – Can be disposed of as ordinary garbage (not a Hazmat like other cleaners). Because Yellow Magic does not pose a risk for fire hazard (see SDS section 5: fire-fighting measures), wipes or rags can be disposed of as ordinary garbage. Simply filter Yellow Magic 7 through 50 micron screen to take out contaminants before disposing.
- Parts cleaning – Immerse in Yellow Magic for a 1-30 minute period. Remove parts from the cleaner. Gently scrub with a stiff plastic or brass brush as quickly as possible. Rinse the parts in clear water, let air dry, or dry with a cloth or paper towel.
- Sonic cleaning equipment – 2-3 minutes submersion is sufficient for aluminum alloys. Anilox and meter rollers (or any non-aluminum materials) should remain in the cleaner for a longer period. Note: When cleaning aluminum or aluminum alloy materials, immerse in Yellow Magic for 1-5 minutes only.

Available Configurations:

1-gallon (case of 4)
5-gallon pail
55-gallon drum*
55-gallon drum refill
275-gallon tote*

* Available ready-to-use or Enviro-Shipped
